

who owns this damn country and its public  
airwaves???? Obviously, it is not the american  
public. You are failing our democracy and this  
country by allowing a corporation to air a completely  
false representation of a candidate for president.  
Especially without allowing the 'other side' to air an  
equivalent movie. It is outrageous what is going on  
in this country. The total degradation of this country  
is your responsibility for not maintaining fairness  
and decency in the media.
